

CYBAEM TECH - SOFTWARE REQUIREMENT SPECIFICATION

Project Name: Project Management System Platform [PROJ-MGMT-2026]

Document ID: REQ-PM-2026-V1 | Date: August 14, 2026 | Status: Approved

1. EXECUTIVE SUMMARY

This document defines the software requirement specifications for the CybaemTech Project Management Platform. The system organizes, tracks, and manages multi-project software development lifecycles across Client and In-House categories.

2. KEY FUNCTIONAL MODULES

- MOD-01: Work Item Hierarchy [Epic -> Feature -> Story -> Task / Bug]
- MOD-02: Daily Standup Activity Matrix [Status rollups, Assignees, Bug metrics]
- MOD-03: Sprints & Timeline [Visual Gantt chart with multi-filters]
- MOD-04: Team & Permission Governance [Admin, Scrum Master, Developer, Client roles]
- MOD-05: Automated Task Generation [Template engine auto-subtask creation]

3. TECHNICAL STACK & NON-FUNCTIONAL SPECIFICATIONS

- Frontend: React, TypeScript, Vite, Tailwind CSS, Lucide Icons
- State Sync: Reactive local store with Supabase real-time sync
- Security: Role-based authorization controls & mandatory PDF requirement uploads
